

[ATCS HAS BEEN SELECTED TO PROVIDE COMPLETE DESIGN SERVICES FOR LORTON ROAD IMPROVEMENTS](#)

ATCS has been selected by Fairfax County to provide complete engineering services for the Lorton Road Improvements project. The project involves improving Lorton Road and Furnace Road from two lanes to four lanes for 2.7 miles and includes four bridges. ATCS will be providing complete design from the conceptual design stage through the construction document stage including roadway design, surveying, bridge design, landscape design, stormwater management, environmental services, public involvement, and low impact development design.
