

### Fairfax County Parkway Extension

As part of the VDOT GEC, ATCS is providing the overall project management for the \$117 Million project to complete the final two miles between Rolling Road and I-95 including an interchange at the Engineering Proving Ground. ATCS is managing the project in coordination with the US Army Corps of Engineers, the Federal Highway Administration Eastern Federal Lands Highway Group, Fairfax County, and VDOT. Our Construction Management staff is coordinating and providing QA/QC inspection of construction activities in the field; performing constructability reviews of the design; change order management and change order cost estimating; and reviewing the contractor's baseline and monthly update construction CPM schedules. ATCS reviewed and evaluated Phase III and IV contracts prior to bid advertisement.
