

### [National Capital Region Long-Term Community Recovery Strategy](#)

*The Nonprofit Roundtable of Greater Washington/Metropolitan Washington Council of Governments awarded a 2-phase contract to ATCS. Under the first phase, ATCS Human Services staff developed a strategic framework for planning, executing, and measuring progress of a regional long-term community recovery effort. The NCR-LTCR Strategy document provides recommendations and organizational tools for multi-jurisdictional decision-making and coordination, operational management, as well as pre-disaster planning and post-event recovery plans to be performed by the regional authorities and individual counties in the NCR. Under the second phase, ATCS staff developed and executed an engagement strategy to support the Nonprofit Roundtable in outreach and education efforts to the NCR counties and municipalities on best practices for preparing for and implementing disaster recovery and how best to utilize the NCR-LTCR Strategy and available LTCR tools.*
