

### [Construction and Project Management, Town of Purcellville, Virginia](#)

ATCS is providing construction management and project management support to the Town, for the management and administration of the Town's Capital Improvement Program. These services include oversight and coordination of projects through planning, design and construction. Working directly with the VDOT NOVA District staff, specifically the VDOT Local Assistance Program/Urban Program Manager and staff from Location & Design and Environmental sections, to ensure that VDOT's requirements under the Local Administered Project Program are being met. ATCS is also providing management oversight to engineering and design consultants under contract to the Town.
